in Musab Khan

Summary

Experienced frontend and Node.js developer with a strong understanding of modern web technologies and best practices. Skilled in building scalable, performant, and user-friendly applications using HTML, CSS, JavaScript, React, Node.js, and related technologies. Adept at working in collaborative team environments and delivering high-quality work within tight deadlines.

Experience

Fullstack Developer | *T7E Aftermarket Connect Pvt*   2022 – Present

T7E is a one-stop solution for companies in India's automotive aftermarket.

- Created a custom client dashboard
- Collaborated with the UX/UI design teams to improve the website and dashoard
- Daily maintenance of code, debugging issues and solving clients' problems
- Presented findings in a clear and concise manner to key decision-makers

Jr Developer | *Adinfinitum Network*   2021 – 2022

Adinifinitum.medianetwork is a programmatic advertising management platform

- Created Dashboard using React which involved multilevel hierarchical filtering,graphs,tables which was on millions of data to set the campaign settings
- Wrote nodejs script to automate the process of dashboard interaction that reduced support tickets by 50%

Data Analyst Intern | *Hotstar*   2019 – 2020

Disney+ Hotstar is an Indian subscription video on-demand over-the-top streaming platform

- As a data analyst intern at Hotstar, I gained valuable experience working with large datasets and using SQL to extract, clean, and analyze data. I worked on projects that involved analyzing user engagement and user acquisition data, and used various SQL functions and techniques to calculate metrics and uncover insights. I also had the opportunity to work with data from different sources and use SQL to join and transform the data. Throughout my internship, I developed strong analytical and problem-solving skills, and learned how to communicate complex data insights to stakeholders effectively.

Core & Technical Skills

Java Script, Type Srcipt, Python, C, React, Angular, Next Js, Node Js, Express, Git, Figma, Elastic Search, GraphQL, MongoDB, PostgreSQL, MySQL, MariaDB, ORM, Project Management, Problem-Solving, HTML, CSS, Jira, Azure.

Education

Masters Program in Data Science using Python from Grey Atom   2019
School of Data Science

I've studied the methodological and mathematical foundations of data science and machine learning, as well as gained practical hands-on skills.

M.H. Saboo Siddik College of Engineering-University of Mumbai   2010-2016

Bachelor's in Automobile Engineering
